07:15 Registration and Coffee

08:00 Welcome & Introduction  
Fares Haddad

Session 1 Hip Preservation
Chairs: Fares Haddad / George Grammatopoulos

08.10 Cam morphology, gait and spine hip relations  
Justin Cobb
08.17 The FAIT study – An arthroscopic good news story  
Tony Andrade
08.24 Why hip arthroscopies fail  
Johan Witt
08.31 How is the outcome of hip joint arthroplasty affected by previous hip arthroscopy?  
Tony Andrade
08.38 Just because you could do hip preservation surgery, doesn't mean you should  
Marcus Bankes
08.45 The role and hazards of hip arthroscopy after THA  
Matt Wilson
08.52 Discussion

Session 2 THA in 2018
Chairs: Henrik Malchau / Seth Greenwald

09.05 Influence of collar and broach design on press fit fixation with uncemented stems  
Sebastien Lustig
09.12 Cementless HA coated stems, not all the same  
Kris Govaers
09.19 THA after previous osteotomies  
Luigi Zagra
09.26 THA after failed fracture surgery  
Ran Schwarzkopf
09.33 Are porous acetabular surfaces an advantage in primary THA?  
Henrik Malchau
09.40 Long term results of trabecular metal sockets in difficult acetabular revisions  
Paul Lachiewicz
09.47 Cinderella's granny will go to the ball - neck of femur fractures and arthroplasty  
Dominic Meek
09.54 The current role of RSA  
Anders Troelsen
10.01 Discussion

10.15 Coffee & Exhibition

Session 3 State of the Art in THA
Chairs: Justin Cobb / Paul Lachiewicz

10.45 Reconstruction of the centre of rotation in primary total hip arthroplasty  
Geert Meermans
10.52 Pelvic positioning: supine or lateral for accurate cup orientation?  
George Grammatopoulos
10.59 Patient specific instruments (PSI) in hip surgery  
John Skinner
11.06 Robotic hip surgery – are we ready?  
Fares Haddad
11.13 Use of cemented stems in robotic hip surgery - it’s all about combined version!  
Matt Wilson
11.20 The limits of computer and robotic guided surgery today  
Seb Parratte
11.27 Managing the cost of advancing technologies  
Seth Greenwald
11.34 Discussion

11.45 Spinopelvic alignment - relevance to your practice  
Doug Padgett
11.52 Influence of pelvic rotation on cup position  
Geert Meermans
11.59 Spinopelvic hypermobility is associated with inferior outcome following hip arthroplasty  
George Grammatopoulos
12.06 Anterior approach: is it worth it?  
Sebastien Lustig
12.13 Discussion
### Session 3  State of the Art in THA (continued)

**Chairs: Justin Cobb / Paul Lachiewicz**

1. **12.24** Improving access for patients at the primary/secondary care interface  
   Speaker: Steve Jones

2. **12.31** Hip complexity scoring  
   Speaker: Andrew Manktelow

3. **12.38** Rationing in THA  
   Speaker: John Skinner

4. **12.45** Outpatient THA – is this a forward step?  
   Speaker: Fares Haddad

5. **12.52** Discussion

---

### Session 4  Case Presentations

**Moderators: Andrew Manktelow / Steve Jones / Marcus Bankes / Johan Witt**

**14.00** Faculty panel debate of complex cases  
**Speakers:** All Faculty

---

### Session 5  The Bearing in 2018

**Chairs: Doug Padgett / John Skinner**

1. **14.45** Big metal heads with cross-linked poly for primary THA  
   Speaker: Paul Lachiewicz

2. **14.52** The clinical evidence for vitamin E polyethylene in THA  
   Speaker: Anders Troelsen

3. **14.59** Oxinium – an update  
   Speaker: Ran Schwarzkopf

4. **15.06** Is ceramic on ceramic better than ceramic on poly?  
   Speaker: Johan Witt

5. **15.13** Hip resurfacing - back to the future  
   Speaker: Kris Govaers

6. **15.20** H1 ceramic hip resurfacing: results of an MHRA registered safety study  
   Speaker: Justin Cobb

7. **15.27** Discussion

---

### Session 6  Revision

**Chairs: Fares Haddad / Dominic Meek**

1. **16.10** Why are we revising?  
   Speaker: Carsten Perka

2. **16.17** Revision networks  
   Speaker: Andrew Manktelow

3. **16.24** Monobloc titanium revision stems  
   Speaker: Sujith Konan

4. **16.31** Megaprostheses - indications and outcomes  
   Speaker: Thorsten Gehrke

5. **16.38** Discussion

6. **16.50** PJI - New diagnostic tools  
   Speaker: Luigi Zagra

7. **16.57** How can we use trabecular metals as antibiotic carriers in hip revisions  
   Speaker: Seb Parratte

8. **17.04** PJI - The 1.5 stage exchange. Experiences with a new spacer  
   Speaker: Thorsten Gehrke

9. **17.11** The role of proprionibacterium in THA infections  
   Speaker: Carsten Perka

10. **17.18** Discussion
Session 6 Revision (continued)

Chairs: Fares Haddad / Dominic Meek

17.28 Instability: Prevention in 2018  
17.35 Instability: Investigation - role of early surgery  
17.42 Dual mobility in 2018: Outcomes, advances & current concerns  
17.49 Discussion

18.00 Summary and Close of Meeting  
Fares Haddad

A major feature of the meeting is the LHM Exhibition which showcases the latest technologies and products from many leading companies.
